

SPRAYBUFF

PRODUCT DESCRIPTION:

SPRAYBUFF is formulated by using a floor finish polymer blended with a high-quality detergent for removing scuffs, black heel marks, and scratches without disturbing the finish on the floor.

SPRAYBUFF minimizes floor care maintenance expenditures by reducing the cost of stripping, sealing, and refinishing. Spray buffing provides important preventive maintenance when used to restore traffic lanes, to remove scratches, or to add a high gloss to an already waxed or finished floor.

DIRECTIONS FOR USE:

Some individuals may be sensitive to ingredients in this product. Before use, read product label and MSD sheet. Wet floors may be slippery.

Prevent pedestrian traffic with signs or barricades.

1. Dust and damp mop floor thoroughly.
2. Spray SPRAYBUFF lightly over a 4 ft. square area in front of, or alongside, the floor machine. Too much SPRAYBUFF will take more time than needed, so just mist the area.
3. Start buffing the SPRAYBUFF immediately, moving the machine left to right or back and forth. When floors have been buffed dry, turn pad over and buff to a high gloss. SPRAYBUFF may be used with floor machines of all speeds.
4. After you have finished spraybuffing, dust mop the floor using Spartan's Dust Mop/Dust Cloth Treatment and damp mop if necessary.
