

# EnduraSTRIP

## finish and wax stripper

EnduraSTRIP is an intense remover, originally developed for Spartan's very durable Endura Gloss finish. This stripper removes heavy build-up even in your hard to strip areas. EnduraSTRIP is concentrated for economy and flexibility.

Providing Quality Maintenance and Chemical Specialty Solutions with Unparalleled Customer Service

**AGGRESSIVE STRIPPING ACTION!**

EnduraSTRIP is a powerful blend of select solvents chosen for their ability to quickly attack and remove heavy finish build-up. The formula is unique in the fact that it does not emulsify like a normal floor finish stripper. Instead, EnduraSTRIP quickly penetrates and actually lifts the finish off the floor. Pickup with a wet-vac or auto scrubber and clear water rinse to remove residue. Flood rinsing is not necessary.

**ECONOMICAL:**

EnduraSTRIP is highly concentrated and is formulated to be diluted. Easily achieve equivalent removability as a conventional floor stripper with half the amount of EnduraSTRIP.

**PLEASANT TO USE:**

EnduraSTRIP does not contain added fragrance. When diluted for use, it is virtually odor-free. In addition, EnduraSTRIP only contains low level VOCs.

**DIRECTIONS FOR USE:**

Some individuals may be sensitive to ingredients in this product. Before using, read product label and MSD sheet. Prevent pedestrian traffic with signs or barricades.

**Light to Medium Finish/Wax Build-up:**

Dilute product up to 1:12 (10 oz./gal.) or (83 ml per liter) with warm or room temperature water.

**Heavy Finish Build-up:**

Dilute up to 1:8 (16 oz./gal.) or (125 ml per liter). Liberally apply product with mop to small section (100 sq.ft./9 m<sup>2</sup>) of floor. Be sure to completely cover floor to the baseboards. After 3 to 5 minutes, begin to agitate the floor with a floor machine using a stripping brush. Additional stripper solution may need to be added to keep the floor wet. Pickup solution using wet-vac. Use of an automatic scrubber is an alternative.

NOTE: Do not allow solution to dry on the floor. Clear water rinse two or three times to remove residue or squeegee tracks as necessary. Flood rinsing is not required before recoating.

**Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting [www.spartanchemical.com](http://www.spartanchemical.com).**

**SPECIFICATIONS:**

Total Active Ingredients - 50%  
 Specific Gravity - 1.025  
 Density - 8.538 lbs/gal  
 Viscosity - water thin  
 pH Concentrate - 13.4 - 13.8  
 Flash Point (Cleveland Open Cup) - 210°F  
 Stability:

- a. Shelf @ 24°C/75°F - in excess of one year
- b. Accelerated @ 49°C/120°F - in excess of 90 days
- c. Freeze/Thaw Cycle - freezes and thaws with complete clarity

Rinsability - rinses completely in hot or cold water  
 Biodegradable  
 Phosphate free
