

Spartan's Xtreme MTCA Cleaners go head-on against dirt, grease and grime

Slam through soils with these three unique, highly concentrated formulas that provide fast and efficient removal of soils.

Spartan's Xtreme MTCA Cleaners provide maximum economy through leaner dilutions and more concentrated formulas.

Spartan's Xtreme MTCA Cleaners easily and efficiently cut through the heavy traffic and nasty road films that make up the vast majority of soils faced by the transit and cargo industries.

Get on the right track by working with products that get you on the road to managing your chemical costs. Spartan's Xtreme Clean Cargo, Xtreme Rapid Transit and Xtreme Custom Car Wash heavy-duty cleaners provide solutions.

These highly concentrated products perform! Spartan's Xtreme MTCA cleaners are enhanced with new state-of-the-art surfactants that allow for better cleaning and aid in the removal of road films, grease and grime. The cost of maintaining vehicle appearance is kept in check with lean dilution ratios.

These new Xtreme MTCA Cleaners contain added polymers that provide sheeting action for film-free drying, minimizing spotting and leaving a cleaner and brighter surface.

Xtreme MTCA products are formulated to clean without hot water dependence. Energy conservation through cold water cleaning allows end-users additional cost savings. Performance without temperature dependence allows long term savings.

XTREME RAPID TRANSIT®
XTREME CLEAN CARGO®
XTREME CUSTOM CAR WASH®
 Highly Dilutable
 Biodegradable
 Formulated WITHOUT
 Acid, Solvents or NTA

Time and energy cost money! Don't be caught left of center by not realizing the true costs involved with cleaning your truck fleets, cargo carriers, and vehicles.

Spartan's Xtreme MTCA Cleaners provide:

Mega Concentrations
Superior Performance
Spot Free Rinsing

Controlling chemical costs are paramount in all industries and with Spartan's Xtreme MTCA family of highly concentrated product formulas you will meet your expectations while maintaining the bottom line on expenses.

Xtreme Custom Car Wash®

Car Wash Cleaner

DIRECTIONS FOR USE Manual Cleaning

When using Xtreme Custom Car Wash in a bucket for manual hand washes, the product may be used at 1 oz. up to 6 oz. per gallon dilution.

Automatic Wash Systems

Xtreme Custom Car Wash is designed for use at 1 oz. per gallon dilution under normal cleaning circumstances. When heavy-duty soils are present, 6 oz. per gallon may be used. For light-duty soils, Xtreme Custom Car Wash will work at 1/4 oz. per gallon. Always remember to rinse thoroughly.

Xtreme Clean Cargo®

Pressure Washer Cleaner

DIRECTIONS FOR USE

Xtreme Clean Cargo may be used at the following dilutions:

Recommended Dilution Ratios for one gallon of water

Soil Load	Dilution Ratio	Oz./Gal.
Light Duty	1:128 - 1:256	1 oz. - 0.5 oz.
Medium Duty	1:40 - 1:64	3 oz. - 2.0 oz.
Heavy Duty	1:20 - 1:32	6 oz. - 4.0 oz.

- When washing with Xtreme Clean Cargo, pour into the detergent compartment.
- Set the mixture to the desired dilution ratio.
- Select the proper spray nozzle depending on the condition of the surface to be cleaned. For example, use a 15° nozzle for extremely dirty surfaces and a wide-angle nozzle for general maintenance cleaning.
- After selecting the proper nozzle for washing, hold the pressure washer wand 12" to 14" from the surface being cleaned. Apply the Xtreme Clean Cargo solution to the surface, working from the bottom to the top.
- Allow the Xtreme Clean Cargo solution to penetrate the surface dirt and grease for a minimum of 30 seconds. DO NOT ALLOW PRODUCT TO DRY on the surface being cleaned.
- Once the Xtreme Clean Cargo solution has loosened the dirt and grease from the surface, switch the pressure washer over to the rinse cycle and rinse the surface from the top down. When a stronger solution of Xtreme Clean Cargo is used to clean heavily soiled surfaces, a second rinse may be required. When this is the case, first rinse from the bottom up and then from the top down.

Xtreme Rapid Transit®

Transportation Cleaner

DIRECTIONS FOR USE Automatic Wash Systems

Use at 1/2 oz. per gallon dilution (4 ml/l) under normal cleaning circumstances. For light-duty soils, use at 1/4 oz. per gallon (2 ml/l). For heavy-duty soils, 1 oz. per gallon (8 ml/l) may be used. Rinse thoroughly. For best results when heavy soil conditions exist, pre-scrub rocker panels, front and back of vehicle with hand brush.

Engine Cleaning

In some cases, strong dilutions of Xtreme Rapid Transit (1:10 to 1:25) can be used to clean engines. Apply through a sprayer or pressure washer and rinse thoroughly.

Manual Cleaning

When using Rapid Transit in a bucket for manual hand washes, dilute at 1:128 (1 oz. /gal. or 8 ml/l of water). Rinse thoroughly.

Aluminum Cleaning

Xtreme Rapid Transit contains an aluminum corrosion inhibitor which protects aluminum when used undiluted and up to dilutions of 1:256. For best results dilute Rapid Transit at 1:128 (1 oz. per gallon). Rinse thoroughly.

PACKAGING:

Xtreme Rapid Transit, Xtreme Clean Cargo, and Xtreme Custom Car Wash are packaged in 330-gallon reusable totes; HDPE (High Density Polyethylene) 275-gallon recyclable totes; 55, 30, 15-gallon drums; 5-gallon pails; and gallons, four per case. Label copy is provided in English and Spanish. Secondary labels are also available.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

Guarantee:

Spartan's modern manufacturing and laboratory control insure uniform quality. If dissatisfied with performance of product, any unused portion may be returned for credit within one year of the date of manufacture. Use product as directed and read all precautionary statements.

Transportation Cleaners

Xtreme MTCA

Multi-Purpose Transit, Cargo & Auto Transportation Cleaners

Mega Concentrates

Superior Performance

Spot Free

Spartan's Xtreme Rapid Transit, Xtreme Clean Cargo and Xtreme Custom Car Wash are mass-transit, cargo and auto transportation cleaners specially formulated to destroy dirt, grease, grime and road film. Total removal of soil leaves surfaces clean, shiny and looking great!

Distributed by:

Xtreme Custom Car Wash®

Car Wash Detergent With Sheeting Action
 Xtreme Custom Car Wash is a concentrated cleaner, formulated for hand washing and the special detail needs of the exterior automotive-care market. The formula is ideal for removing road film, grease, road salts and other hard-to-remove soils from all types of vehicle surfaces. Xtreme Custom Car Wash can also be used in coin-operated automatic wash systems. The product is a clear blue liquid concentrate with a pH ranging from 8.0 to 9.0.

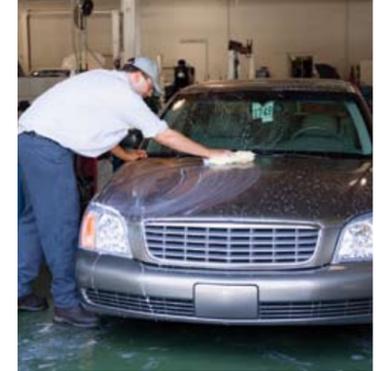

Keep It Clean Exterior Car Care... Saves Appearance and Adds Value

Washing regularly protects the vehicle's finish from harsh elements such as road salts, carbon soot, acid rain and other environmental filth. These contaminants cause damage to clear-coat paint protection finishes, as well as paint, metal and plastic surfaces. Keeping vehicle surfaces clean adds years to the life span of an auto's appearance. Regular cleaning and maintenance of an automobile's surface protects the high cost investment of automobiles while it saves time and money in the future, by protecting the paint, metal and plastic surfaces from expensive exterior detailing work.

Xtreme Chemistry = High Performance

Xtreme Custom Car Wash cuts through the toughest of soils with a formulation consisting of detergents, efficient wetting and sequestering agents, and a high performance detergent polymer; advanced critical micelle concentration of Xtreme Custom Car Wash allows for fast and efficient soil removal, ensuring high performance cleaning action; plus the superior surfactant package exhibits generous high foaming action and excellent cleaning and rinsing characteristics at low dilution ratios.

Spot Free Sheeting Action
 A high performance detergent polymer in Xtreme Custom Car Wash makes the vehicle's surface hydrophilic, or "water loving". This "water loving" property allows water to quickly sheet off the vehicle surfaces for ultra fast and spot free drying and, as an additional benefit, every time the surface is washed with Xtreme Custom Car Wash the temporary layer of polymer gets reloaded, making future washes easier to clean and drying spot free.

Aids Brush Lubricity
 Sensitive decals, stickers, and lettering can be removed due to high brush friction during the cleaning process. Xtreme Custom Car Wash's surfactants and foam profile aid brush lubricity. This feature is an important factor when the product is used in automatic brush wash systems.

Will Not Strip Wax
 Xtreme Custom Car Wash's pH balanced formula does not strip wax. The pH is just alkaline enough to degrease without interfering with wax protection. Xtreme Custom Car Wash leaves a thin, transitory layer of a detergent polymer molecule that actually enhances the protection and luster of the vehicle's surfaces.

Xtreme Clean Cargo®

Super Strength Pressure Washer Concentrate

Xtreme Clean Cargo eradicates dirt, grease and grime like never before. Blast away to a cleaner, brighter surface with Xtreme Clean Cargo. The super strength concentrate is formulated for use with high pressure cleaning equipment. Xtreme Clean Cargo removes road film, grease, and other hard-to-remove soils from all metal, painted, and fiberglass surfaces. Xtreme Clean Cargo is a rose red liquid concentrate.

Power Clean Heavy-Duty Soils

Use high pressure cleaning equipment to power clean brick, trucks, buses, or use in a mobile washing unit. Wherever soil is found, Xtreme Clean Cargo has the power to scour it away. It is the ideal heavy-duty pressure washer cleaner to tackle tough cleaning jobs, from shipyards, to tires and trucks.

"Xtreme" Advantage Cleans Without Agitation

The unique formulation of Xtreme Clean Cargo, with a heavy concentration of wetting agents and builders, provides quick penetration and removal of road film, grease, and grime. Xtreme Clean Cargo is powerful enough to remove heavy soils without manual agitation, such as brushing, yet will not harm painted surfaces, letters, decals or etch glass.

Time and Labor Saver

Xtreme Clean Cargo's easy to rinse formula eliminates the extra time and labor associated with rinsing, plus the non-filming, sheeting action leaves surfaces streak free. The controlled dehydration property extends drying time, permitting a larger surface area to be cleaned before rinsing becomes necessary.

Efficient and Versatile Vehicle Wash
 Xtreme Clean Cargo's super detergency breaks through tough traffic film that accumulates on a vehicle's surface. Xtreme Clean Cargo is the ideal heavy-duty pressure washer cleaner to tackle a variety of tough cleaning jobs, such as: vehicles of all types, tractors/farm equipment, trailers, recreational watercraft, cargo carriers and railroad cars, aluminum and vinyl siding, concrete/stone/brick, and more.

Cold Water Economy and Hot Water Option

Xtreme Clean Cargo is extremely effective no matter what water temperature is used. The "Xtreme" formula cleans using cold water, which will assist in controlling rising energy costs while maintaining effective cleaning power. When hot water is needed for cleaning applications, Xtreme Clean Cargo's high heat stability formulation ensures effective dirt removal at elevated temperatures.

Save With Lean Dilutions

Save with this new "Xtreme" formula. High pressure cleaning is easier than ever with this economical and improved formula. Get superior cleaning and minimize time, labor, water and energy with Xtreme Clean Cargo.

Xtreme Rapid Transit®

Mass Transportation Cleaner

The new Xtreme Rapid Transit Cleaner is a mega concentrate created specifically for the mass transit industry. This new formula is ideal for brushless and automatic wash systems. Xtreme Rapid Transit is a water thin, clear blue liquid concentrate, and has a pH ranging from 11.5 to 12.5.

Prevents Corrosion

The new Xtreme Rapid Transit formula is blended with specialized builders and a state-of-the-art polymer that prevents corrosion. This unique formula will not hurt or blemish paint, lettering or decals. This new "Xtreme" formula is biodegradable and formulated without phosphates, harsh acids, or solvents.

Economical Cleaner Superior Performance

Use Xtreme Rapid Transit at lean, budget friendly dilutions ranging from 1/4 oz. to 1 oz. per gallon. With a mixture of specially blended surfactants and sequestering builders, Xtreme Rapid Transit offers excellent cleaning at low dilutions. Formulated to clean without hot water, Xtreme Rapid Transit saves on energy costs.

Trains - Trams - Trolleys - Trucks

Clean the fleet! Xtreme Rapid Transit cleans away dirt, grease, grime, and road salts regardless of vehicle type and size.

Use Inside and Out

Any surface not harmed by water may be cleaned with Xtreme Rapid Transit. Used at light dilutions to clean floors, seats, and railings inside most transportation vehicles. At stronger, heavy-duty dilutions, the new "Xtreme" formula can be used to degrease engine blocks.
