TOUGH DUTY®
INDUSTRIAL STRENGTH ALL PURPOSE CLEANER & DEGREASER

PRODUCT DESCRIPTION:
Tough Duty is a butyl-based, ready-to-use cleaner and degreaser formulated and packaged for maximum user convenience. A non-viscous clear pink liquid, Tough Duty is an industrial strength all-purpose cleaner.

SUPERIOR CLEANING PERFORMANCE:
The Tough Duty formula is a combination of wetting and cleaning agents fortified with a solvent. Tough Duty's wetting action is immediate even on heavy build-ups. Spartan's unique combination gives Tough Duty its unusual ability to quickly penetrate and remove both food and industrial type grease-base soils.

PACKAGED FOR MAXIMUM USER CONVENIENCE:
Tough Duty is packaged in a Ready-To-Use Handi Spray quart bottle that is easy to hold, handle, store, and distribute. Three adjustable trigger sprayers which provide a variety of spray patterns, from a straight stream to a fine mist, are included in each case of 12 quarts.

PLEASANT AND EASY TO USE:
Tough Duty is ready to go - simply spray and wipe. Users will appreciate its time saving benefits, the elimination of mixing and possible spillage. Although Tough Duty includes a butyl in its base formula, no annoying odor is discernible.

VERSATILE:
Safe for use on nearly every washable surface, use Tough Duty on walls, partitions, floors, vinyl, chrome, stainless steel, Formica®, Fiberglas®, synthetic rubber, white wall tires, porcelain, and ceramic.

On painted surfaces, always test in a small, hidden area for like all industrial strength products, Tough Duty may remove water-based paint from walls and other surfaces. Do not use Tough Duty on soft vinyl or varnished surfaces.
VOC COMPLIANT:
Spartan has always been proactive in matters concerning health, safety and the environment. In keeping with this philosophy, Tough Duty complies with strict, new VOC restrictions.

DIRECTIONS:
Simply spray and wipe away ground-in grease and grime, as well as ordinary soils, such as coffee, cola, lipstick, crayon, oil, and smoke film. When used on vertical surfaces, spray from the bottom up and wipe quickly to avoid streaking.

SPECIFICATION DATA:
Specific Gravity – 1.00@ 24°C/75°F
Density – 8.35@ 24°C/75°F
pH – 11.5-12.0
Flash Point – None
Stability –
  a. Shelf @ 24°C/75°F – One year minimum
  b. Accelerated @ 49°C/120°F – 30 days minimum
  c. Freeze/Thaw – will withstand a minimum of one cycle
Rinsability – Rinses with hot or cold water
Biodegradable
VOC Compliant
