PRODUCT FEATURES

WOODFORCE A-Tack is a tack rag compound to use on new wood or between coats of seal and finish. The special blend of solvents prepares wood for strong adhesion of the coating on both new and already sealed floors.

CLEANS AND PREPARES

WOODFORCE A-Tack is a time effective and efficient preparation for removing dust and dirt prior to sealing and finishing. Removes all greasy or oily soils and dries residue-free, so nothing will impede seal and finish adhesion. WOODFORCE A-Tack will not reduce gloss on high quality urethane finishes. Application will also magnify problem areas after screening and highlighting where additional preparation is needed to remove trouble spots.

EVAPORATES QUICKLY WITHOUT RESIDUE

A-Tack is a ready-to-use formula that evaporates quickly and leaves floors ready to receive finish.

Note: Be sure to allow A-Tack to evaporate completely before applying seal or finish! Double check cracks, board spaces, nail holes, voids and areas along the walls. Wet or damp/dark areas may not accept seal/finish and may delay the seal/finish dry time.

CLEANS EQUIPMENT

WOODFORCE A-Tack cleans tools, equipment, pans, brushes and applicators used by coating professionals.

Note: Do not leave tools in A-Tack for an extended amount of time or overnight. Clean tools immediately. Do Not Use WOODFORCE A-Tack as a thinner.

DIRECTIONS FOR USE

See product label for product use instructions and tips. See additional Informative Bulletins for important notes and trouble shooting.

IMPORTANT NOTE: This product and its vapors are combustible and harmful to inhale. Be sure to provide adequate ventilation and observe precautionary and Personal Protective Equipment (PPE) recommendations.

KEEP OUT OF REACH OF CHILDREN. HARMFUL OR FATAL IF SWALLOWED. HARMFUL IF INHALED. CAUSES EYE AND SKIN IRRITATION.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

SPECIFICATION DATA

Total Active Ingredients: 100%
Weight per gallon: 6.49 lbs. (0.78 density)
Appearance: Thin colorless liquid
Flash point (T.C.C.): 40°C/104° F
Stability

- **Shelf @ 21°C / 70°F:** One year
- **Freeze/Thaw:** Can withstand three cycles
- **Miscibility:** None

Odor: Solvent odor similar to low-odor mineral spirits
Spontaneous heating: Autoignition 450° F (approximate)
Residue: None
Coverage: As required (About ½ gallon / 5,000 ft.²/tack run.)
