FAST AND EFFECTIVE:

Advances in the area of synthetic pyrethrins, has created pyrethroid formulations which are extremely effective. F-6 Flying Insect Killer contains Tetramethrin which literally paralyzes or immobilizes flying insects.

REGISTERED WITH THE EPA:

F-6 Flying Insect Killer is registered with the Environmental Protection Agency for use in those areas indicated on product labeling.

(EPA Reg. No. 706-83-5741, EPA Est. No. 706-IL-1).

PLEASANT AND EASY TO USE:

The F-6 Flying Insect Killer aerosol dispensing system assures fine particle size which allows prolonged suspension of active ingredients and provides quick knockdown of flying pests.

ECONOMICAL:

The quality and high percentage of active ingredients in F-6 Flying Insect Killer insures economical use through reduction in the number of applications needed to kill and control flying insects.

For Use In Non-Food Areas Of Commercial, Industrial And Institutional Buildings And In Households

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use in commercial food processing, preparation or storage areas.

Shake Before Use, Hold Container Upright. Apply In Short Bursts.

To Kill Flies, Mosquitoes, Small Flying Moths and Gnats: Close all doors and windows, and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and discard fallen insects.

Storage: Store in a cool, dry place (preferably locked) inaccessible to children and pets and away from direct sunlight, windows, flames or other sources of heat or ignition.

Disposal: Do not puncture or incinerate!

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions.
