

# Lite'n Foamy®

## counter mount dispenser

The Lite'n Foamy Counter Mount Dispenser is a premium system designed to deliver rich quality foam right from the counter top. The attractive chrome design and impact resistant body will fit the décor and demands of many upscale restrooms such as those found in lodging, restaurants, entertainment and office buildings. Fill with any Lite'n Foamy Hand Soap.

Quality Maintenance and Chemical Specialty Products to Meet the Needs of Professionals

**EASY TO FILL:**

The Lite'n Foamy Counter Mount Dispenser fills from the top. There is no need to crawl under the counter or on the floor to fill the dispenser. Utilize the new Gallon Spout that attaches easily to any Lite'n Foamy gallon jug for the perfect pour every time.

**FITS ANY COUNTER AND SINK:**

Available in either 4" or 6" spouts, the counter mount gives you the flexibility to fill pre-existing counter mount dispenser holes.

**ELIMINATE MESSY DRIPS:**

The Counter Mount Dispenser eliminates messy drips and soap stains commonly found on restroom countertops. Cut costly clean up associated with wall mounted dispensing units.

**BULK FILL:**

Save money with a bulk-fill system. Stop throwing unused cartridge products away. Just pour more Lite'n Foamy soap into the dispenser! Reduce packaging in landfills with this bulk-fill system.

**LITE'N FOAMY PRODUCTS:**

Use any Lite'n Foamy product with this dispenser. Lite'n Foamy is available in four great fragrances, Sunflower Fresh, Citrus Fresh, Cranberry Ice and PearLux. Also available is E2 which is specially formulated for use in food processing and handling applications. Lite'n Foamy Industrial Hand Wash was specifically formulated to remove oils, greases and other hard to remove soils from hands without drying.

**GREEN AND SUSTAINABLE:**

Lite'n Foamy Citrus Fresh and Sunflower Fresh are Green Seal certified and contain 85% bio-based material. These products are perfect for any green or sustainable program.

**INSTALLATION REQUIREMENTS:**

The Lite'n Foamy Counter Mount Dispenser requires a 7/8" (22mm) diameter hole through the countertop. Provide clearance below the countertop for a 4 - 1/2" (114mm) diameter x 18" (457mm) container. The distance from the center hole to the wall needs to be longer than the spout to allow enough room to unscrew the top for filling.

**FILLING:**

To fill the unit, unscrew the escutcheon counterclockwise and remove the pump assembly from the shank. Pour soap into the tube opening. Do not overfill to leave room for the pump assembly. Insert the pump assembly into the tube opening and tighten the escutcheon in a clockwise direction.

**PARTS KIT & GALLON SPOUT:**

There is a parts kit available which includes parts that are most likely to wear out over time. The parts kit includes, one foam pump, one spring, one piston nut and one o-ring.

Also available is a gallon spout. This spout screws onto any gallon for easy, accurate, mess free pouring.
