

HARD SURFACE DISINFECTING WIPES

NABC Hard Surface Disinfecting Wipes

Cross contamination of hard surfaces happens anywhere people work and play. Assisted living facilities and nursing homes, doctors' offices, daycare centers, grocery stores, and fitness centers are just a few of the locations where viruses, bacteria and disease can be spread from one hard surface to another. Reducing the spread of germs must be part of a daily routine.

The solution: wipe it away!

Providing Quality Maintenance and Chemical Specialty Solutions with Unparalleled Customer Service

*Staphylococcus aureus, Klebsiella pneumoniae, Listeria monocytogenes, Escherichia coli O157:H7

*** Influenza A Virus, Pandemic 2009 H1N1 Influenza A Virus, Human Coronavirus[†]

WHERE TO USE:

Spartan NABC Hard Surface Disinfecting Wipes are formulated to disinfect hard, non-porous, inanimate environmental surfaces such as metal surfaces, stainless steel surfaces, plastic surfaces, and bathrooms. Spartan's NABC Hard Surface Disinfecting Wipes can be utilized in any environment with hard surfaces where bacteria and disease spread. Commonly used in hospitals and healthcare settings, daycares and schools, athletic facilities, transportation terminals, grocery stores, shopping centers, institutional kitchens and/or bathrooms, correctional facilities, and veterinary clinics just to name a few.

The wipes are convenient, and ready to use for cleaning and disinfecting hard, non-porous, surfaces such as light switches, exercise equipment, hospital bed rails, grocery cart handles, computers, countertops, desktops, doorknobs, headsets, keyboards, railings, tabletops, telephones, bathroom faucets, kitchen faucets, and more.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

CLEANING: Use one wipe to completely remove all loose dirt and debris from surfaces to be treated.

DISINFECTING: To disinfect hard, non-porous surfaces, thoroughly wet the surface to be treated. Treated surface must remain visibly wet for disinfecting. Use enough wipes for treated surface to remain visibly wet for 5 minutes. For heavily soiled surfaces, clean before following disinfecting instructions. Allow surfaces to air dry. This product is an effective disinfectant against Escherichia coli O157:H7, Pseudomonas aeruginosa, Salmonella enterica, Staphylococcus aureus, Streptococcus pyogenes, Vancomycin resistant Enterococcus faecium, Methicillin resistant Staphylococcus aureus, Community Associated Methicillin resistant Staphylococcus aureus Genotype USA400, Community Associated Methicillin resistant Staphylococcus aureus Genotype USA300, and Vancomycin intermediate resistant Staphylococcus aureus (VISA) (ATCC 700699) and Klebsiella pneumoniae New Delhi Metallo-Beta Lactamase (NDM-1) Carbapenem Resistant (CDC Clinical Isolate No. 10002).

VIRUCIDAL ACTIVITY: This product is an effective virucide on hard, non-porous surfaces against Influenza A2/Japan (VR-547), Herpes Simplex Virus 1 (ATCC VR-260), Human Immunodeficiency Virus, Type 1 (HIV-1) and Herpes Simplex Virus 2 (ATCC VR-734), Duck Hepatitis B Virus (DHBV), Human Hepatitis B Virus (HBV), Bovine Viral Diarrhea Virus (BVDV) and Human Hepatitis C Virus (HCV) when the treated surface is allowed to remain wet for 5 minutes. Allow surface to air dry.

[†]This product is an effective virucide on hard non-porous surfaces against Human Coronavirus (ATCC VR-740) when the treated surface is allowed to remain wet for 10 minutes. Allow surfaces to air dry.

FUNGICIDAL ACTIVITY: This product is an effective fungicide against Trichophyton mentagrophytes (causative agent of Athlete's Foot fungus, a cause of ringworm), when used as directed on hard surfaces found in bathrooms, shower stalls, locker rooms, exercise facilities or other clean, hard, non-porous, surfaces commonly contacted by bare feet. The surface must remain visibly wet for 3 minutes. Allow surfaces to air dry.

SANITIZING/DEODORIZING:

To sanitize/deodorize hard, non-porous surfaces; wipe surface, using enough wipes to allow treated surface to remain wet for 15 seconds for Staphylococcus aureus, Klebsiella pneumoniae, Listeria monocytogenes, Escherichia coli O157:H7 and 1 minute for Campylobacter jejuni. Let surface dry. For highly soiled surfaces, clean excess dirt first.

SPECIFICATIONS:

Specific Gravity - 1.007
pH - 10.5 - 12.0
EPA Reg. No. 1839-190-5741

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

ACCESSORIES:

A wall bracket is available for making wipes easily accessible. Keeps wipes conveniently mounted and out of the way. Perfect for use in schools, healthcare facilities, athletic clubs, and more.

The available floor stand can be used in a variety of ways and in a variety of accounts. The stand comes with one bracket to mount on the stand, but can also support another bracket on the opposite side for another container. This stand is perfect for storing wipes in grocery stores for customers to wipe down their cart handles or in an athletic club for wiping down equipment after use. Store a small trash can on the base of the stand for discarding wipes.

Wall Bracket, Item #930800
Floor Stand, Item #930700

PACKAGING

108706 NABC Hard Surface Disinfecting Wipes (6/case)

Each container contains 125 pre-moistened, 7" x 8" wipes.

Label copy is available in English and Spanish.

GUARANTEE: Spartan's modern manufacturing and laboratory control insure uniform quality. If dissatisfied with performance of product, any unused portion may be returned for credit within one year of the date of manufacture. Use product as directed and read all precautionary statements.

For institutional and industrial use only.
