

# Spartan Tote Dispenser System

## Bulk Chemical Dispensing

- SAVE DOLLARS ON CHEMICAL AND LABOR COSTS
- IMPROVED PRODUCT PERFORMANCE WITH PROPER DILUTIONS
- SAFE - NO CONCENTRATED CHEMICAL CONTACT
- EASY TO INSTALL - ONLY SIMPLE TOOLS NEEDED
- 30 GPM FLOW RATE
- COMPLIMENTARY EMPTY TOTE RETRIEVAL PROGRAM

Enjoy bulk size savings, convenience, PLUS ensure proper dilutions with the SPARTAN TOTE DISPENSER SYSTEM. Employee safety is increased due to NO CONCENTRATED CHEMICAL CONTACT. The easy to install system requires only simple tools for assembly... tools already available in most well stocked tool boxes. The complete system comes with an automatic shut off mechanism for added protection from mishap.

The stacked tote system saves valuable real estate with its configuration, reduces switching out of refill containers, plus minimizes SKUs. Connected to a water supply source, the Spartan Tote Dispenser System maintains a flow rate of 30 gpm. The accurate dilutions flow through a 1-1/2 inch diameter hose from the top tote where it is diluted automatically.

Automatic scrubbers and other automatic equipment can be filled directly. Ready to use 32 ounce bottles are also filled from the convenient RTU tap, adding extra value to this cost efficient dispensing system.

**E**ngineered with large volume users in mind, the Spartan Tote Dispenser System is accurate, cost efficient, safe, and easy to use
