List N: Spartan Disinfectants for Use Against SARS-CoV-2

March 17, 2020

To: All Distributors

On March 13, 2020 the EPA published List N: Disinfectants for Use Against SARS-CoV-2. **List N includes products that meet EPA's criteria for use against SARS-CoV-2, the cause of COVID-19.** *This list includes products with emerging viral pathogen claims and those with human coronavirus claims.*

The following Spartan disinfectants are included on this list:

Part Code	Description	EPA Reg. No.
1056, 4856	* BNC-15®	6836-348-5741
1017, 1021	**TB-Cide Quat®	1839-83-5741
1018, 4806	Halt®	10324-93-5741
1035	PSQ II	10324-93-5741
1202	HDQ Neutral®	10324-155-5741
1204	Super HDQ Neutral®	10324-141-5741
4702	hdqC 2®	1839-169-5741

Emerging Viral Pathogen Policy

The EPA has been overwhelmed by applications for the Emerging Viral Pathogen Policy amendment and thus has published the following guidance as it relates to List N, disinfectants, and SARS-CoV-2.

When purchasing a product, check if its EPA registration number is included on this list. If it is, you have a match and the product can be used against SARS-CoV-2. You can find this number on the product label – just look for the EPA Reg. No. These products may be marketed and sold under different brand names, but if they have the same EPA registration number, they are the same product.

How to find the EPA registration number on Spartan products

To find the EPA registration number on Spartan products, look directly below the Active Ingredients listing. You will see that the registration number for HALT (1018, 4806) is 10324-93-5741. While the Halt brand name is not listed on List N, you will find a match for 10324-93. The suffix “5741” is Spartan’s EPA establishment number.

If you have any questions regarding this notice, please don't hesitate to contact your Spartan regional manager or anyone at Spartan's home office; we are here to assist you.

As always, we thank you for being a Spartan distributor and value your continued support.

Best Regards,

Vice President of Marketing and Advertising
Spartan Chemical Company

**BNC-15 (EPA Reg # 6836-348-5741) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, BNC-15 can be used against the SARS-CoV-2 when used in accordance with the directions for use against Enterovirus D68 and Norovirus (Norwalk Virus) on hard, non-porous surfaces. Refer to the CDC website <https://www.cdc.gov/coronavirus/2019-ncov/index.html> for additional information.*

***TB-Cide Quat® (EPA Reg # 1839-83-5741) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard non-porous surfaces. Therefore, this product can be used against SARS-CoV-2 when used in accordance with the directions for use against Human Rotavirus, Rhinovirus Type 39, Hepatitis A virus, Poliovirus Type 1, and Canine Parvovirus on hard, non-porous surfaces. Refer to the CDC website (<https://www.cdc.gov/coronavirus/2019-ncov/index.html>) for additional information.*
